Weekly Walk

After three years of service here, I find myself with powerful memories of sacred moments in our sanctuary. Baptisms, communions, candle lights, confirmations, and most recently a healing service. What sacred moments do you remember? Read [Psalm 84](#), a Psalm written as a love-poem for the ancient Hebrew temple. But, the psalm points beyond the temple to the God who gives life to any temple, any sanctuary, or any place. God is in the business of creating sacred moments more than sacred spaces.
